PHILOSOPHY OF DISCIPLINE

The primary goal of the Polk County Public School System is to ensure that each student achieves at the highest possible level. Education is to be provided in a manner that does not discriminate or cause harassment on the basis of race, color, religion, sex, age, national or ethnic origin, political beliefs, marital status, disability, sexual orientation, or social and family background. In order for this to be accomplished:

- Every school staff member will strive to create a positive, safe environment that encourages and supports student success. Underlying causes for misbehavior will be explored, and when possible, positive redirection will occur and acceptable alternative behaviors will be taught. Such redirection may involve a collaborative effort of school, community and parents/guardians.

- It is the objective and policy of the School Board of Polk County to recognize, preserve and protect the individual rights of all students; and, at the same time, to encourage and enforce the exercise of these rights within the framework of an orderly and efficient school program. Within this framework, it is the duty of the School Board, the administrative staff, and the faculty of each school to prevent and to prohibit student conduct that becomes dangerous, disruptive or destructive, and therefore endangers the proper maintenance and function of the school program. Staff members are expected to model core value behaviors that set an example for students. It is expected that all disciplinary measures will be conducted in a manner that is respectful to the student and preserves that student's dignity wherever possible. It is the expectation that each student will behave in a manner that does not threaten, interfere with, or deprive other students of their right to an education and will accept responsibility for their behavior. An effective school environment must be safe and free from disruption. Progressive discipline utilizing corrective strategies that consider the student’s age, exceptionality, previous conduct, probability of a recurring violation, intent, attitude, and severity of the offense shall be utilized in all instances.

- The School Board further recognizes that students are protected and have certain rights extended to citizens under the United States Constitution and its amendments; and that these rights cannot be abridged except in accordance with the due process of law. Therefore, in order to clarify the guidelines of student behavior in the schools and establish procedures to be followed, the Code of Student Conduct has been adopted by the School Board. The Code shall be mandatory and applied in a manner that is consistent with this philosophy of discipline. Individual schools may adopt additional regulations governing actions not covered by the Code, but such additional regulations may neither substitute for nor negate any Code provisions unless approved through the School Board waiver process. It is essential that all students, their parents/guardians, teachers, support staff and administrators understand and abide by the Code of Student Conduct.

School, Students and Parents Working Together

In order to create a safe learning environment to ensure academic success, the parents, students and the school must work together. Supporting our students’ behavioral, social, and academic progress is critical to their success. There are a few basic things that all adults must do to guarantee student achievement.

- **Teaching behavior:** All behaviors are skills, and the skills students use are learned from us. Follow these simple steps when teaching students how to act.
  - Everyone needs a clear idea of what student behavior should be: **Set Expectations**
  - **Teach and model** the expected behavior. Show them how to do it.
  - Provide opportunities to practice. **Role Play**
  - **Frequently reinforce** the expected behavior through specific praise and incentives.
  - **Acknowledging desired behavior** is seven times more effective than excluding a student for misbehavior.

- **Communication** between school and home is another key to success. When parents contact a teacher or someone else at the school they can expect a helping response. In addition, when the teacher/school contacts the parent it is expected that the parent will respond to the school.

- **Collaboration:** Student success depends on everyone working together, sharing ideas, developing common goals, focusing on the desired outcomes.

- **Relationship:** One of the most important factors in student success is a caring relationship with a significant adult.

  **Parents Can Help By Teaching, Monitoring and Reinforcing These Skills:**
  There are basic skills that all students need in order to be successful in school. These skills are:

<table>
<thead>
<tr>
<th>Listening</th>
<th>Contributing to Discussions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Following Directions</td>
<td>Answering Classroom Questions</td>
</tr>
<tr>
<td>Asking for Help</td>
<td>Accepting Consequences</td>
</tr>
<tr>
<td>Cooperating with Others</td>
<td>Coping with Losing</td>
</tr>
<tr>
<td>Ignoring Distractions</td>
<td>Waiting for Adult Intervention</td>
</tr>
<tr>
<td>Accepting Responsibility</td>
<td>Dealing with Accusations</td>
</tr>
</tbody>
</table>

There are additional thing that parents can do to help their children be successful in school:

- **Teach responsibility:** One good way to do this is by having rules and expectations.
- **Establish routines:** Bedtimes, a daily homework/practice time, a location at home for schoolwork to be completed.
- **Let them know school is important to you:** Reminding students before they go off to school of what you expect, monitoring achievement and homework through the parent portal, learning what social/behavioral skills are being taught in school and teaching them at home.
- **Listen to their day:** Asking questions about what happened at school and listening to their response.
  - What did you learn today?
  - What did you do in class today?
  - How was the bus ride to and from school?
- **Advocate for them:** Communicate with the school personnel who are important in your child’s life. Be a part of every meeting at school.
- **Teach self-advocacy:** Students must develop the ability to identify and express their needs, wants, preferences and goals
Schools Will Create The Conditions For Student Success By Having:

- **A Well-developed School-wide Expectations and Classroom Rules:** To be effective rules must be specific, taught (modeled and practiced), prompted, reinforced and frequently reviewed. They must cover specific expectations such as transitions, entering the room, getting started, and handling materials.

- **A positive school climate** that emphasizes dignity, respect, safety relationships and student engagement.

- Professionals that know how to **identify and reinforce expected behaviors**

- **Effective parent and student communication:**
  - Daily/weekly notes, e-mail, use of agenda
  - Positive and negative phone calls
  - Charting point earned
  - Monitoring behavior/academic contracts, behavioral/academic agreements

- **Engagement Strategies**
  - Matching the curriculum and task to student learning level.
  - Using activities that promote engagement, higher pace, more student responses
  - Knowing what you want the student to do, and reinforce when the student does it.
  - Monitoring student progress, teaching students to monitor their own progress, and track progress.
  - Providing daily reminders in opening activities or at the beginning of the period about classroom expectations.

- **Multiple levels of support for:**
  - Academics
  - Behavior
  - Attendance

- **Alternatives to exclusionary responses to misbehavior:**
  - Class-wide management strategies, including teaching and rewards, re-teaching needed behaviors
  - Reinforcement
  - Re-teaching expectations
  - Behavior Contracting
  - Increasing parent involvement and communication regarding behavior
  - Referral to the Student Success Team
  - Restorative practices
  - Counseling
  - Peer mediation, Conflict resolution
  - Removal of privileges
  - Development of specific behavior intervention plans

PROTECTION OF PUPIL RIGHTS AMENDMENT (PPRA)

The Polk County School District administers the Polk County Prevention Survey and the Florida Youth Survey each year. All students in grades six through twelve are given the opportunity to participate in the Polk County Prevention Survey. The Florida Youth Survey will be administered randomly to students in a limited number of middle and high schools selected by the state between January and February of this school year. The Polk County Prevention Survey will be administered in the fall between November and December of this school year. These surveys ask secondary students about demographic information and student behaviors including drug, alcohol, tobacco use, and school related violence. The surveys are important in assessing our School District’s needs, monitoring programs, and evaluating prevention program outcomes. Student participation in both surveys is strictly anonymous. No personally identifiable information is requested as part of the survey or survey process. These surveys are voluntary, and students may choose not to participate. Students who do participate will not be required to answer all of the questions – only those they choose to answer.

As a parent, you have the right to prohibit your child’s participation in either or both surveys. Neither you nor your child is required to give a reason for not participating. Contact Mark Wilcox Center personnel at (863) 291-5355 no later than October 16th of this school year, if you would like to review the surveys or if you do not want your child to participate.

STUDENT DIRECTORY INFORMATION

The District shall make available, upon request, certain information known as "directory information" without prior permission of the parents or the eligible student. Directory information means information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. The Board designates as student "directory information:" a student’s name; photograph; address; telephone number, if it is a listed number; e-mail address; date and place of birth; participation in officially-recognized activities and sports; height and weight, if a member of an athletic team; dates of attendance; grade level; enrollment status; date or graduation or program completion; awards received; and most recent educational agency or institution attended.

Directory Information may be released to any individual, agency, or organization without prior consent, unless a parent or eligible student has notified the School Board of Polk County (SBPC) in writing that they do not wish the information released. In addition, two (2) federal laws require the School Board of Polk County, Florida (SBPC) to provide military recruiters, upon request, with three (3) Directory Information categories - names, addresses, and telephone listings, unless parents have advised the School Board of Polk County, Florida (SBPC) that they do not want their student’s information disclosed without their prior written consent. The school must verify that a written request to withhold any or all of the Directory Information is on file at the school site. The Directory Information Opt-Out Form (Appendix A) is to be used for this purpose. The Directory Information Opt-Out Form and the Parent Notification Letter (page v) are to be given to parents on a yearly basis in the Code of Student Conduct. Notification of parental objection to release of “Directory Information” must become a part of the student’s cumulative record and should be flagged on computer records as appropriate.

If you do not want Directory Information released, you must complete the Directory Information Opt-out Form (Appendix A) and return to school within thirty (30) days.
If a student lacks a fixed, regular, night-time residence, lives in any of the following situations:

- Sharing the housing of others due to loss of housing or economic hardship
- Living in a motel or hotel due to loss of housing or economic hardship
- Staying in a shelter; emergency or transitional
- Substandard housing; without electricity, running water, health code violations, lack of cooking capabilities, etc.

TECHNOLOGY POLICIES

www.polk-fl.net Keyword: Tech Policies

7540 - COMPUTER TECHNOLOGY AND NETWORKS

The School Board is committed to the effective use of technology to both enhance the quality of student learning and the efficiency of Board operations.

However, the use of the District’s network and technology resources by students is a privilege, not a right.

Further, safeguards shall be established so that the Board’s investment in both hardware and software is achieving the benefits of technology and inhibits negative side effects. Accordingly, students shall be educated about appropriate online behavior including, but not limited to, using social media to interact with others online; interacting with the other individuals in chat rooms or on blogs; and recognizing what constitutes cyberbullying. Understanding cyberbullying is a violation of District policy, and learning appropriate responses if they are victims of cyberbullying.

7540.03 - STUDENT NETWORK AND INTERNET ACCEPTABLE USE AND SAFETY

Advances in telecommunications and other related technologies have fundamentally altered the ways in which information is accessed, communicated, and transferred in society. Such changes are driving the need for educators to adapt their means and methods of instruction, and the way they approach student learning, to harness and utilize the vast, diverse, and unique resources available on the Internet. The District is pleased to provide Internet services to its students. The District's Internet system has a limited educational purpose. The District’s Internet system has not been established as a public access service or a public forum. The District has the right to place restrictions on its use to assure that use of the District’s Internet system is in accord with its limited educational purpose. Student use of the District's computers, network and Internet services ("Network") will be governed by this policy and the related administrative guidelines, and the Student Code of Conduct. The due process rights of all users will be respected in the event there is a suspicion of inappropriate use of the Network. Users have a limited privacy expectation in the content of their personal files and records of their online activity while on the Network.

The District encourages students to utilize the Internet in order to promote educational excellence in our schools by providing them with the opportunity to develop the resource sharing, innovation, and communication skills and tools that are essential to both life and work. The instructional use of the Internet will be guided by the Board’s policy on instructional materials.

The Internet is a global information and communication network that provides an incredible opportunity to bring previously unimaginable education and information resources to our students. The Internet connects computers and users in the District with computers and users worldwide. Through the Internet, students and staff can access up-to-date, highly relevant information that will enhance their learning and the education process. Further, the Internet provides students and staff with the opportunity to communicate with other people from throughout the world. Access to such an incredible quantity of information and resources brings with it, however, certain unique challenges.

First, and foremost, the District may not be able to technologically limit access, to services through the District's Internet connection, to only those that have been authorized for the purpose of instruction, study, and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness, access to the Internet, because it serves as a gateway to any publicly available file server in the world, will open classrooms and students to electronic information resources which have not been screened by educators for use by students of various ages.

The District has implemented technology protection, utilizing software and hardware measures which monitor, block, and filter Internet access to visual displays that are obscene, child pornography, or harmful to minors. Nevertheless, parents/guardians are advised that a determined user may be able to gain access to services on the Internet that the School Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents/guardians may find inappropriate, offensive, objectionable, or controversial. Parents/guardians assume
risks by consenting to allow their child to participate in the use of the Internet. Parents/guardians of minors are responsible for setting and conveying the standards that their children should follow when using the Internet. Pursuant to Federal law, students shall receive education about the following:

A. safety and security while using e-mail, chat rooms, social media, and other forms of electronic communications;
B. the dangers inherent with the online disclosure of personally identifiable information; and
C. the consequences of unauthorized access (e.g., "hacking"), cyberbullying, and other unlawful or inappropriate activities by students online.

Site managers are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying procedures. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of the Internet, and will monitor students' online activities while at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

All Internet users (and their parents if they are minors) are required to sign a written agreement annually, or at the time of enrollment, to abide by the terms and conditions of this policy and its accompanying procedures.

Students and staff members are responsible for good behavior on the District's computers and the Internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. The Board does not sanction any use of the Internet that is not authorized by or conducted strictly in compliance with this policy and its accompanying procedures.

Students shall not access social media for personal use from the District's network but shall be permitted to access social media for educational use in accordance with their teacher's approved plan for such use.

Users who disregard this policy and its accompanying procedures may have their use privileges suspended or revoked and disciplinary action taken against them. Users granted access to the Internet through the District's computers assume personal responsibility and liability, both civil and criminal, for uses of the Internet not authorized by this Board policy and its accompanying procedures.

The Board designates the Superintendent and administrators responsible for initiating, implementing, and enforcing this policy and its accompanying procedures as they apply to students' use of the Network.

**5136 - PERSONAL COMMUNICATION DEVICES**

Students may possess personal communication devices (PCDs) in school, on school property, during after school activities (e.g., extracurricular activities) and at school-related functions.

Technology including, but not limited to, PCDs intended and actually used for instructional purposes (e.g., taking notes, recording classroom lectures, writing papers) will be permitted, as approved by the classroom teacher or the building principal. However, the use of a PCD to engage in non-education related communications is expressly prohibited.

For purposes of this policy, "personal communication device" includes computers, tablets (e.g., iPads and similar devices), electronic readers ("e-readers": e.g., Kindles and similar devices), cell phones (e.g., mobile/cellular telephones), smartphones, (e.g., BlackBerry, iPhone, Android devices, Windows Mobile devices, etc.) and/or other web-enabled devices of any type. Students may not use PCDs on school property or at a school-sponsored activity to access and/or view Internet web sites that are otherwise blocked to students at school. Students may use PCDs while riding to and from school on a school bus or other Board-provided vehicles or on a school bus or Board-provided vehicle during school-sponsored activities. Distracting behavior that creates an unsafe environment will not be tolerated.
Under certain circumstances, a student may keep his/her PCD "On" with prior approval from the building principal.

PCDs, including but not limited to those with cameras, may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include, but are not limited to, locker rooms, shower facilities, rest/bathrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The Superintendent and building principals are authorized to determine other specific locations and situations where use of a PCD is absolutely prohibited.

Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property.

Students may not use a PCD in any way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, embarrassed or intimidated. See Policy 5517.01 - Bullying and Other Forms of Aggressive Behavior. In particular, students are prohibited from using PCDs to: (1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, color, national origin, sex, sexual orientation, disability, age, religion, ancestry, or political beliefs; and (2) engage in "sexting" - i.e. sending, receiving, sharing, viewing, or possessing pictures, text messages, e-mails or other materials of a sexual nature in electronic or any other form. Violation of these prohibitions shall result in disciplinary action. Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a PCD by a student at school during school hours is a privilege that may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The building principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a particular violation. If the PCD is confiscated, it will be released/returned to the student's parent/guardian after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the PCD may be turned-over to law enforcement. A confiscated device will be marked in a removable manner with the student’s name and held in a secure location in the building’s central office until it is retrieved by the parent/guardian or turned-over to law enforcement. School officials will not search or otherwise tamper with PCDs in District custody unless they reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. Any search will be conducted in accordance with Policy 5571 – Search and Seizure. If multiple offenses occur, a student may lose his/her privilege to bring a PCD to school for a designated length of time or on a permanent basis.

A person who discovers a student using a PCD in violation of this policy is required to report the violation to the building principal.

Students are personally and solely responsible for the care and security of their PCDs. The Board assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, PCDs brought onto its property.

Parents/Guardians are advised that the best way to get in touch with their child during the school day is by calling the school office.

PART I  RIGHTS AND RESPONSIBILITIES

CODE OF STUDENT CONDUCT'S PURPOSE (SECTION 1.01): The School Board of Polk County, Florida, as the governing Board of the School District of Polk County, and the public schools of Polk County exist for the purpose of meeting the educational needs of Polk County's citizens, both youth and adult. The Code of Student Conduct was developed to inform students and parents of acceptable student behavior and the disciplinary alternatives for modifying unacceptable behavior.

The aim of the district is to build effective environments in which positive behavior is encouraged so that academic success can be achieved. Each school shall have in place a school-wide behavior management system based upon proactive, educative, and reinforcement-based strategies. This plan is to be shared with parents, students and staff continuously throughout the school year.

Teachers are to have a consistent proactive behavior management system within the classroom. Rules/expectations are to be displayed, modeled taught, and reviewed. Teachers are to inform/communicate with parents and students the rules/expectations of the class. In creating safe and more effective schools our aim is to prevent inappropriate behavior through teaching and reinforcing appropriate behaviors.

Successful School Management: One important objective of successful school management is the creation of a safe and non-disruptive environment in which an equal educational offering can be extended to each student. Acceptable student behavior is a key element in the creation and maintenance of such an environment. An integral part of the overall learning process is making positive efforts within a safe and orderly environment to correct students’ behavioral mistakes as well as academic mistakes. Schools will attempt to provide a range of interventions that are systemically applied to students based on their demonstrated level of need and addresses the role of the environment as it applies to the development and improvement of appropriate behavior.

A. Student Discipline: Student discipline, when properly administered, reinforces the educational process in a positive manner. Student discipline must be administered in a manner that teaches acceptable social skills and instills within the student a lasting respect for authority.
   1. Due Process: Student discipline that is properly administered can demonstrate the principles of procedural and substantive due process which are the basic building blocks of an orderly society governed by laws rather than by the whims of man.
   2. Procedures: In order to assure these concepts, the School Board has provided procedures throughout this handbook which shall be strictly adhered to in all student discipline matters resulting in suspension, expulsion, or assignment to a special placement or an individually designated program.

B. Health, Safety, and Welfare: The School Board has the responsibility to provide for the health, safety, and welfare of all students and employees.
   1. Learning Atmosphere: The School Board, with the cooperation of students and parents, has the responsibility to provide a proper atmosphere for learning provided by competent administrators and teachers who are enthusiastic, understanding, and fair.
   2. Criminal Liability for Disruption of Educational Institutions: Pursuant to Section 877.13, Florida Statutes, it is unlawful for any person to disrupt or interfere with the administration or functions of any educational institution, School Board, or activity on School Board property.

C. Management of Student Behaviors:
   1. School Board: The School Board is authorized to adopt rules and regulations for the control and discipline of students and shall decide all cases in which expulsion is recommended.
   2. Code of Student Conduct: The Code of Student Conduct handbook outlines the rights and responsibilities of the School Board and students with regard to the conduct of students while attending school or a school-sponsored activity, while on school property or a school bus, or at a designated school bus stop. The Code also includes discipline and appeal procedures as well as consequences for violations of the Code of Student Conduct.
   a. Instruction and Distribution: Specific instruction about the Code of Student Conduct is provided to all students, and this handbook is distributed to all students for delivery to their parents at the beginning of each school year continuously throughout the school year.
   b. Acknowledgment: Both parents and students have the responsibility to become familiar with the Code of Student Conduct and to complete and return the Acknowledgment Form (Appendix B) of this document.

Progressive discipline utilizing corrective strategies that consider the student’s age, exceptionality, previous conduct, probability of a recurring violation, intent, attitude, and severity of the offense shall be utilized in all instances.

All corrective strategies used by school site-administrators must be in compliance with School Board rules and policies. Inherent in these rules and policies is the philosophy of fairness and consideration for actions that are in the best interest of students.

The aim of the district is to build effective environments in which positive behavior is encouraged more than problem behavior so that academic success can be achieved. Each school shall have in place a school wide behavior management system based upon proactive, educative, and reinforcement based strategies. This plan is to be shared with parents, students, and staff continuously throughout the school year.

Teachers are to have a consistent proactive behavior management system within the classroom. Rules/expectations are to be displayed, taught, and reviewed. Teachers are to inform/communicate with parents and students the rules/expectations of the class.

### Levels of Discipline All Students Section 3.03

**Level 7 – Secondary Alternative Education Programs (Grades Sixth through Twelfth):** The Secondary Alternative Education Programs are a form of discipline designed to meet the needs of students who violate the Code of Student Conduct. Students assigned to Alternative Education Programs will be denied participation in any activities sponsored by any school or by the District. These activities include but are not limited to Prom, Grad Night, field trips, athletics, Band, Chorus, academic competitions or commencement (except extracurricular activities at the assigned Alternative Education Program).

1. **Out-of-School Suspension:** When a student is assigned to a Secondary Alternative Education Program, an out-of-school suspension shall first be imposed to temporarily remove the student from the school and to allow the assignment to be processed.

2. **Terms:** The term of assignment to a Secondary Alternative Education Program shall either be short term, 45 school days or long term, 90 school days. The length of the term shall be determined by the school or representative from the office of discipline based upon the student’s previous discipline history and severity of the offense. In addition, the proximity to a change of grading periods shall also be taken into consideration for a student’s return to his or her regular school.

3. **Release Criteria:** A student’s attendance, participation, and progress (as evidenced by Expectations/Criteria for Release) while assigned to the Secondary Alternative Education Program will be reviewed by the Site Administrator to determine if the student has met criteria. The site administrator will schedule and conduct an exit meeting/staffing with the zoned school (to include but not limited to: alternative school staff, zoned school staff, parents and the student recommended for release). The Superintendent may release a student from the Secondary Alternative Education Program before the normal length of stay.

4. **Basis for Extension:** If, and only if, School Board action on an expulsion recommendation is pending and the ten (10) day suspension period would expire before the next regular or special meeting of the School Board, the Superintendent may extend the suspension through the date of the next regular or special meeting of the School Board.

5. **Educational Status:** The student who is the subject of the expulsion recommendation shall remain on suspension or, if applicable, be assigned to an Alternative Education Program or other program or granted a Stay (pursuant to Section 3.06) as deemed appropriate by the Superintendent, until the School Board takes final action on the expulsion recommendation at its next regular or special meeting.

Students formally charged by the State Attorney’s office with a felony shall be suspended from extra-curricular and co-curricular activities until adjudication is determined or the charges are dropped or reduced.

**NOTE:** A student arrested for an off-campus felony cannot be suspended pursuant to this section unless and until the student is formally charged by the State Attorney or other proper prosecuting attorney.

   b. **Educational Services:** If it is determined that the student’s presence would have an adverse impact, the student shall remain on suspension. Such suspension shall not affect the delivery of educational services to the student, and the student shall be immediately enrolled in a daytime Alternative Education Program or Adult School Program if the student has reached sixteen (16) years of age pending the outcome of the judicial determination.

**B. Judicial Determination:**

1. **Not Guilty:** If the student is found not guilty the suspension and assignment to an Alternative Education Program shall be terminated immediately.

2. **Guilty:** If the student is found guilty of a felony, the Superintendent shall have the authority to determine if a recommendation for expulsion shall be made to the School Board in accordance with the expulsion procedures as outlined in Part III, Discipline and Appeal Procedures, Section 3.03, Levels of Discipline.

### DISCIPLINE OF IDEIA-ELIGIBLE STUDENTS - SECTION 3.08

Under the Individuals with Disabilities Education Improvement Act (IDEIA), students who have been identified as a student with a disability and are receiving Exceptional Student Education services are subject to additional disciplinary guidelines that are different than those for nondisabled students. The following procedures are designed to supplement the disciplinary procedures for nondisabled students found in the Code of Student Conduct. The disciplinary guidelines contained herein are for explanatory purposes only and are not intended to impose any obligations on Polk County Schools other than those contained in federal or state law. In the event that this document conflicts with state or federal law, the state or federal law shall control. Except as set forth herein, students with disabilities may not be excluded from educational programming on the basis of behavior that is a manifestation of their disability(ies). In addition, students with disabilities cannot be excluded from school without following the specific "change in placement" procedures as provided under the law. **Students with disabilities cannot be removed from school until all of the procedures set forth below have been followed.**

It is the responsibility of the LOCAL EDUCATIONAL AGENT (LEA) at all IEP meetings to ensure that the rights of students and parents are not violated. It is important that the opinions of all team members involved are considered in the decision-making process.

**GENERAL REQUIREMENTS FOR ALL SUSPENSIONS/EXPULSIONS OF IDEIA ELIGIBLE STUDENTS:**

Administrators may not suspend students with disabilities for more than ten (10) school days (consecutively or cumulatively) in a school year without following the procedures set forth below. The law provides that suspension or expulsion of a student for more than ten (10) consecutive school days in a school year is a "change of placement" that can only be made by following the procedures set forth in the IDEIA. The IDEIA also provides for significant procedural safeguards for students who are suspended for more than ten (10) cumulative school days.

A. **Accurate Record:** An accurate record must be maintained as to the number of days that students with disabilities are suspended from school during each school year and each school must input the required suspension data on the appropriate Genesis screen.

B. **Alternatives to Suspension:** Administrators and deans must also consider alternatives to out-of-school suspension for students. This list includes but is not limited to the following:

1. Modifications to the IEP including Positive Behavioral Intervention Plan (PBIP) in current placement; change of current placement for additional services
2. Parental assistance
3. Office intervention
4. Referral to guidance or other student services
5. Behavior agreement with student and/or parents
6. Detention
7. Work detail
8. In-school suspension

When suspension for ten (10) school days or less is contemplated or warranted under school policy, the requirement for an informal conference, as is held with nondisabled students, must be followed. The following steps must be taken before the short-term suspension of a student with a disability can occur:

A. **Previous Suspension History:** The principal/designee must obtain the previous suspension history of the student for the school year to determine the number of days the student has already been suspended during that school year.

B. **Determination of Suspension:** If it is found that the student is guilty of the offense, a short-term suspension may be warranted. However, the process for imposing a suspension will be different depending upon the number of days the student has already been suspended during the school year.

1. **Suspensions of Less than the Ten (10) Day Maximum:** If suspension of the student has not already exceeded ten (10) days for the school year, the student may be suspended for the remaining days. At this juncture, the student and the student's parent(s)/guardian(s) must be informed in writing of the disciplinary action that will be taken and all other procedures must be followed as required for short-term suspension of nondisabled students.

2. **Suspensions of More than the Ten (10) Day Maximum:** Beginning on the eleventh (11) consecutive/cumulative school day of removal in a school year, the School District must provide services to a student with a disability, consistent with the following:
The School District must provide services to such a student to the extent necessary to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student’s IEP.

C. **IEP Review**: A review of the student’s IEP must occur if a suspension that will result in an excess of ten (10) days during the school year is contemplated. The IEP review meeting is convened as any other IEP meeting would be and all appropriate procedures must be followed for convening the Team.

1. **Prior Written Notice must be Provided to the Parents**: Reasonable written notice of the meeting must be provided to the parent(s)/guardian(s). Because disciplinary IEP meetings may need to be held more quickly than a typical IEP meeting, “reasonable notice” could include telephone contact with the parent(s)/guardian(s) to obtain their agreement to attend, followed immediately with the written notice.

2. **Manifestation Determination**: A manifestation determination must be made any time disciplinary procedures result in a change of placement. The IEP team must make a determination as to whether the behavioral incident at issue was a manifestation of the student’s disability. This is required because a student with disabilities cannot be excluded from school for more than ten (10) cumulative/consecutive days in a school year on the basis of behavior that is caused by his/her disability or be subject to a series of removals which constitutes a pattern because the removals cumulate to more than ten (10) school days in a school year.

A manifestation determination, consistent with the following requirements, will be made within ten school days of any decision to change the placement of a student with a disability because of a violation of the Code of Student Conduct.

a) In conducting the review, the school district, the parent, and relevant members of the IEP team will:
   i. Review all relevant information in the student’s file, including any information supplied by the parents of the student, any teacher observations of the student, and the student’s current IEP
   ii. Determine whether the conduct in question was the direct result of the school district’s failure to implement the IEP or whether the conduct in question was caused by, or had a direct and substantial relationships to the student’s disability

b) If the school district, the parent, and relevant members of the student’s IEP Team determine that either of those conditions was met, the conduct must be determined to be a manifestation of the student’s disability. Immediate action to remedy those deficiencies must be taken.

c) If the school district, the parent, and relevant members of the IEP team determine that the conduct was a manifestation of the student’s disability, the IEP team will either:
   i. Conduct a functional behavioral assessment (FBA), unless the school district had conducted a FBA before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan (BIP) for the student; or
   ii. If a BIP has already been developed, review and modify it, as necessary, to address the behavior; and
   iii. Return the student to the placement from which the student was removed, unless the parent and the school district agree to a change in placement as part of the modification of the BIP.

D. **Prior Written Notice of the IEP Team’s Recommendations must be Provided to the Parents**: At the IEP meeting, the opportunity for parent participation in the decision-making process is essential. However, if the parents do not attend, a copy of any minutes and other documentation created by the IEP team shall be provided to the parents. In addition, documentation sufficient to provide written notice of the IEP team’s decisions must be provided to the parents, along with the Procedural Safeguards form. Once the parents have received notice of the IEP team’s decisions and the Procedural Safeguards, the IEP team’s recommendations may be implemented.
PART III DISCIPLINE AND APPEAL PROCEDURE

INTERIM ALTERNATIVE EDUCATION SETTING (IAES):
Students with disabilities may be removed to an IAES for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student’s disability if the student at school or on school premises, or to a school function, carries or possess a weapon, knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, or has inflicted serious bodily injury upon another person.

NOTE: First offense for drugs or controlled substance must comply with Section 5.10 –DRUGS of the Code.

A. Procedures: On the date on which the decision is made to make a removal to an IAES the school must notify the parent of the decision and provide the parent a copy of the notice of procedural safeguards. A manifestation/IEP meeting must be held within ten (10) school days of the removal.

B. Prior Written Notice of the IEP Team’s Recommendations Must Be Provided to the Parents:
At the IEP meeting, the opportunity for parent participation in the process is essential. However, if the parents do not attend, a copy of any minutes and other documentation created by the IEP shall be provided to the parents. Documentation sufficient to provide written notice of the IEP team’s decisions must be provided to the parents, along with the Procedural Safeguards form. The appropriate Prior Written Notice Form must be provided to the parents.

APPEALS:
In most cases, it is expected that school officials and parents, through the IEP team process, will be able to resolve change in placement issues. However, when parents disagree with the IEP team decision, and files an appeal, the student remains in the IAES determined by the IEP team pending the decision of the appeal or until the expiration of the time period specified by school personnel.

504 DISCIPLINE PROCEDURES - SECTION 3.09
504 DISCIPLINE PROCEDURES:
Students covered under Section 504 of the Rehabilitation Act of 1973 cannot be denied services based solely on their disabilities. Such a student may not be suspended from school for more than ten (10) consecutive school days or a series of suspensions within a school year that exceeds ten (10) cumulative days (if it is determined that a pattern of exclusions creates a change of placement) without following the change of placement procedures. A student with a 504 Plan must have a Manifestation Determination Meeting before being reassigned to an alternative site for a disciplinary incident.

A. The school-based 504 Team should review all pertinent data and hold a manifestation determination meeting regarding the student prior to any disciplinary removal for more than ten (10) days.
1. If the behavior is caused by the disability, the student may not be removed for more than ten (10) consecutive school days (unless the behavior is drug related).
2. If the behavior was not a manifestation of the disability, the student may be disciplined the same way the student without disabilities is disciplined.
B. For a student who is currently engaged in the illegal use of drugs, school personnel may take the same disciplinary action as is taken for students without disabilities. No manifestation determination is required.
BREACHES OF CONDUCT

PART IV

When deciding what disciplinary action should be taken, the principal or designee shall consider the student's age, exceptionality, previous conduct, probability of a recurring violation, intent, attitude, severity of the offense, current supports in place/implemented and, whenever possible, shall impose disciplinary action in a progressive manner.

Schools will provide a continuum of services to address the problem. These interventions are systemically applied, match the problem, and have sufficient intensity to address the need.

The goal of all consequences is to change the behavior. If a strategy is not changing the behavior, a new strategy is needed.
PART IV  BREACHES OF CONDUCT

The following described acts or violations in this Part IV shall constitute Breaches of Conduct and include acts or conduct occurring at school or at school-sponsored activities, or on school property, a school bus or at a designated school bus stop if witnessed by a bus driver and/or bus attendant, and shall not be confined to acts or conduct occurring on the school campus if such act or conduct directly affects the educational process or welfare of the school community.

When deciding what disciplinary action should be taken, the principal or designee shall consider the student’s age, exceptionality, previous conduct, probability of a recurring violation, intent, attitude, severity of the offense, current supports in place/implemented and, whenever possible, shall impose disciplinary action in a progressive manner.

Progressive discipline requires that the levels are to be used in a progressive manner moving sequentially through the Levels, unless the severity of the incident warrants a higher level. In creating safer and more effective schools, our aim is to prevent inappropriate behavior through teaching and reinforcing appropriate behaviors. Schools will attempt to provide a range of interventions that are systemically applied to students based on their demonstrated level of need and addresses the role of the environment as it applies to the development and improvement of appropriate behavior.

SERIOUS BREACHES OF CONDUCT

PART V

When deciding what disciplinary action should be taken, the principal or designee shall consider the student's age, exceptionality, previous conduct, probability of a recurring violation, intent, attitude, severity of the offense, current supports in place/implemented and, whenever possible, shall impose disciplinary action in a progressive manner.

Schools will provide a continuum of services to address the problem. These interventions are systemically applied, match the problem, and have sufficient intensity to address the need.

The goal of all consequences is to change the behavior. If a strategy is not changing the behavior, a new strategy is needed.
PART V

SERIOUS BREACHES OF CONDUCT

The following described acts or violations in this Part V shall constitute Serious Breaches of Conduct and include acts or conduct occurring at school or on school property, a school bus or at a designated school bus stop if witnessed by a bus driver and/or bus attendant, and shall not be confined to acts or conduct occurring on the school campus if such act or conduct directly affects the educational process or welfare of the school community.

When deciding what disciplinary action should be taken, the principal or designee shall consider the student's age, exceptionality, previous conduct, probability of a recurring violation, intent, attitude, severity of the offense, current supports in place/implemented and, whenever possible, shall impose disciplinary action in a progressive manner.

Progressive discipline requires that the levels are to be used in a progressive manner moving sequentially through the Levels, unless the severity of the incident warrants a higher level. In creating safer and more effective schools, our aim is to prevent inappropriate behavior through teaching and reinforcing appropriate behaviors. Schools will attempt to provide a range of interventions that are systemically applied to students based on their demonstrated level of need and addresses the role of the environment as it applies to the development and improvement of appropriate behavior.

OPTIONAL AT DISCRETION OF PRINCIPAL

Any student suspended for fighting, battery, assault, or other confrontation may be furnished a Conflict Resolution Student Study Packet at the time of the suspension. The study packet may be obtained from the Mark Wilcox Center. This study packet must be satisfactorily completed by the student during the suspension and returned to the administrator or dean responsible for the initial disciplinary action. If the student satisfactorily completes the study packet prior to the end of the suspension period, the suspension may be reduced by the administrator or dean subsequent to a meeting with the student and parent. The parent has the responsibility to request the meeting.

**DRUGS - SECTION 5.10**

**ELEMENTARY STUDENTS GRADES K-5 (Section 5.10, Items 1-3)**

1. **First Offense:** The student shall receive an out-of-school suspension - long term (four (4) to ten (10) school days) and will complete a substance abuse assessment. In addition, if the students’ parent agrees that s/he will complete this program, the student’s suspension will be reduced to five (5) days. The program specialist must provide proof that the student and parent successfully completed the program within the allocated period of time. Failure to successfully complete the program will result in the student’s immediate assignment to an alternative school program after serving the remainder of the 10-day suspension.

   If the offense constitutes a felony, the student shall be assigned to an Alternative Education Program.

2. **Second Offense During Secondary School Career:** The principal shall assign secondary students who are repeat offenders to an alternative education program. PERSONAL COMMUNICATION DEVICES (PCD) - SECTION 5.26

Students may use their personal communication devices (PCD) to wirelessly access the District’s technology resources (guest or business networks, servers, printers, smart boards, etc.) while they are on-site at any District facility. For purposes of this policy a "personal communication device" includes computers, tablets, (i.e., iPad-like devices) electronic readers or e-readers (i.e., Kindle-like devices), cell phones, smartphones, and/or other web-enabled devices of any type. Access to the business/guest network shall require authentication. Sharing access information is strictly prohibited.

The use of personal communication devices must be consistent with the established standards for appropriate use as defined in Policy 7540.03 - Student Network and Internet Acceptable Use and Safety. This policy can be found on page xiii-xvi in this Code of Student Conduct or online at www.polk-fl.net Keyword: Tech Policies.

The district is currently operating under a phased implementation for Bring Your Own Device (BYOD) under the authority of the school principal. The initial phase is underway in high schools and middle schools with the goal for elementary schools to follow. Please check with your student’s school concerning the availability of BYOD and required permission form.

The owner of a PCD bears all responsibility and assumes all risk for loss, damage or misuse of said property while it is on Board property. Cell phones and other wireless communication devices are small and easily lost. There is also a high incident of theft of these devices. The School Board of Polk County will not be responsible for wireless communication devices lost by or stolen from students.

Possession of a PCD by a student at school during school hours is a privilege that may be forfeited by any student who fails to abide by the terms of School Board Policy 5136 – Personal Communication Devices or otherwise abuses this privilege. The use of a PCD for non-educational purposes including but not limited to recording staff and/or students without permission or knowledge, or recording fights is strictly prohibited. No student may have in his or her possession any wireless communication device or any other item that records, stores, or transmits data during any standardized testing or EOC.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The building principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). If the PCD is confiscated, it will be released/returned to the student’s parent/guardian after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the PCD may be turned over to law enforcement. A confiscated device will be marked in a removable manner with the student’s name and held in a secure location in the building’s central office until it is retrieved by the parent/guardian or turned-over to law enforcement. School officials will not search or otherwise

Consent is not required if the call or text is for emergency purposes or if made directly from a principal, teacher, or other staff member.
